

MapleWorks Enters Partnership with AutomatedQA

MapleWorks Technology, a leader in software development outsourcing solutions and services for network management and communications, announces that it has entered into a partnership with AutomatedQA, a firm specializing in innovative software development and quality assurance tools based in Beverly, Massachusetts.

Boston, MA (PRWEB) November 2, 2009 -- MapleWorks Technology, a leader in software development outsourcing solutions and services for network management and communications, announces that it has entered into a partnership with AutomatedQA, a firm specializing in innovative software development and quality assurance tools based in Beverly, Massachusetts.

MapleWorks Technology

Under the terms of the partnership, MapleWorks will create the scripts necessary to quickly make a test environment productive. MapleWorks has years of expertise in test automation, specifically on AutomatedQA's TestComplete product, an automated testing tool, with unmatched support for unit, functional, regression, distributed and HTTP performance testing at the project level.

According to Vice President and Co-founder Paul Gasparro, "As a proven provider of software development outsourcing services to network communications product suppliers, serving the carrier and enterprise markets, MapleWorks is a perfect partner for Automated QA."
