For Public Sector Agencies*

UNPARALLED INFORMATION TECHNOLOGY EXPERTISE

Top technical talent

The MapleWorks technical team holds extensive product development and project management experience. Leverage MapleWorks' experienced software development resources who deliver on time, on budget, and on spec.

Richard Langevin Senior Associate

Richard holds over two decades of solid management experience in high technology. Heading the consulting services practice for public sector agencies, Richard brings the ability to understand client requirements and employ the most appropriately skilled resources to meet the requirements of every project.

Harry Silverstone Senior Associate

Harry has an established track record in the network communications industry. Through his combined engineering, practical technical knowledge, and customer awareness, Harry is effective in delivering projects on spec, on time, and on budget.

Yi Liang Senior Associate

Yi holds more than 15 years of experience in software design and implementation. His many areas of expertise include network management, wireless networking, database applications, and web-based applications.

Peter Maly Senior Associate

Peter has more than 15 years of experience in product planning, software design, implementation, testing, and troubleshooting.

MapleWorks® Technology Inc. is a Canadian-based provider of highest quality software development outsourcing services. We hold a single-minded focus: network communications. As such, we employ only the most technically astute engineers and project managers.

Technical expertise that's second to none

MapleWorks brings strong technical competency and experience to public sector agencies in the following domains of expertise:

- Telecommunications products and technologies
- Network management products and technologies
- WiFi and WLAN products and technologies
- VoIP products and technologies
- Call center automation
- Databases
- Cloud (SaaS)
- Test automation
- Video distribution and management
- Windows, Linux, and UNIX
- Web and J2EE development technologies
- IJAVA, C, C++, C#.NET and ASP.NET

Government contracting mechanism

MapleWorks, in joint-venture with CRG Consulting, holds the following Public Works and Government Services Canada (PWGSA) Agreements:
